The town centre has bucked the decline trend with waiting lists for retail premises and the bustling high street has seen extensive investment from small businesses with a wide range of modern cafes, bars and shops. Hornsea Museum is nestled in the centre of the town located in an 18th century farmhouse and outbuildings. It includes Victorian rooms, exhibition areas, over 2000 pieces of Hornsea Pottery, a model railway and model fishing boats. They also run events throughout spring summer:
